

Welcome to the Acton Seed Library

Welcome to our second year! We hope you grow something exciting this year!

We want our community to enjoy the experience of growing plants! Whether it be growing flowers or something to eat!

Please read below!

1. All are welcome to order seeds.
2. You **may choose up to five kinds of seeds**. No doubling up on a particular variety. Seed choices are **first come – first serve**. If we run out of something we will not be offering a replacement.
3. You will only be able to request seeds once during the growing season.

The library would like to thank **High Mowing Organic Seeds, Fedco Seed Company, Burpee Seed, Park Seed**, the seed companies who generously donated seed for this project! And also **the Master Gardeners Program – Uconn Extension**.
